

AAC

When offering AAC support to patients and families, several factors should be considered, including:

- patient preference,
- baseline and immediacy of implementation,
- expected timeframe of use, and
- training and implementation issues.

 <p>hungry</p>	 <p>thirsty</p>	 <p>sleep</p>	 <p>nurse</p>
 <p>love you</p>	 <p>goodbye</p>	 <p>story</p>	 <p>pray</p>
 <p>yes</p>	 <p>no</p>	 <p>I dont know</p>	 <p>dont understand</p>
